The answer:

Rules aren't only for games; you **have to** follow rules to drive too! First of all, you have to have a driving licence. In some countries you must also take a test on the Highway Code. Once you get your licence, you **have to** make sure you drive safely. For example, you **don't have to** stop at an amber light, but you **can't** go through a red light. If you see a green light, you **can** drive through, but be careful, there might still be people crossing the road. You **can't** go over the speed limit and you **have to** wear your seatbelt at all times.
