## Writing

### 1 Think and speak.

Discuss the question in groups.

Can you name any famous

mountains?

rivers?

buildings?

deserts?

waterfalls?

### 2 Read and speak.

Read Dana's description of two mountains in Oman. Discuss the questions in pairs.

- 1 Which two mountains did Dana write about?
- 2 Which mountain is higher?
- 3 Which mountain is closer to Muscat?

#### Mountains in Oman

Jebel Shams and Jebel Adhkar are two famous mountains in Oman.

Jebel Shams is 243 kilometres from Muscat. Jebel Shams means 'Mountain of the Sun'. Tourists like to visit Jebel Shams and camp on the mountain.

Jebel Adhkar is 185 kilometres from Muscat. Jebel Adhkar means 'Green Mountain'. Farmers grow roses and fruit on Jebel Adhkar.

Jebel Shams is 3,028 metres high. Jebel Adhkar is 1,074 metres high. Jebel Shams is higher than Jebel Adhkar. It is the highest mountain in Oman.

### 3 Read and order.

Read the text from Activity 2 again. Order the information included in the text.

- 4 Jebel Adhkar's location
- 9 Concluding sentence
- 6 Jebel Shams' height
- 3 Interesting facts about Jebel Shams

- 5 Interesting facts about Jebel Adhkar
- 2 Jebel Shams' location
- 7 Jebel Adhkar's height
- 1 Topic sentence

#### 4 Speak.

Look at the information about your river, building or waterfall. Discuss it with a partner.

Buildings in Asia: The Big Buddha		Buildings in Asia: The Shanghai Tower	
Height	153 m	Height	632 m
Location	Guangzhou, China	Location	Shanghai, China
Interesting facts	It is the tallest Buddhist statue in the world.	Interesting facts	It is the tallest building in the world.

#### 5 Think and write.

Write sentences about the rivers, buildings or waterfalls you selected.

- Location
1. Big Buddha is the biggest tower in the world. It is in Guangzhou, China.
- Height (m)/ Length (km)
1. It is 153 m high.
  2. Shanghai Tower is 632 m.
- Interesting facts
1. Many tourists visit the observation deck.
  2. Shanghai Tower is the second tallest building.
- A sentence comparing the two things
1. The Big Buddha is taller than Shanghai Tower.
  2. Shanghai Tower is taller than Big Buddha.

#### 6 Write.

Write an informative text about your rivers, buildings or waterfalls.

**A river is the path that water takes as it flows downhill towards the ocean.** Rivers can be long or short, wide or narrow and they often join together on their way downstream to make bigger rivers. Lots of animals live in or by rivers and people often find them a good place to live too.

Rivers can be used for lots of good things, like sailing boats on them to trade goods with other towns on the river, and farming on land that has been made fertile by the river, but when there are heavy rains and the river is very full they can be dangerous and do a lot of damage when they flood.

## Working with Sounds

### Soft and hard 'c' sound

Muscat is a capital city.

When the letter c is followed by e, l or y, it makes a soft 's' sound.

When the letter c is followed by any other letter, it makes a hard 'k' sound.

#### 1 Listen and repeat.

face

car

ice-cream

cake

crocodile

pencil

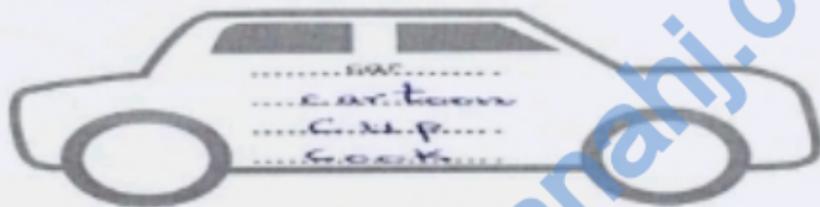

clown

centimetres

#### 2 Sort and write.

Write the words with the same 'c' sound together.

#### 3 Say the tongue twister.

A clown saw colored pencils in a car and drew circles on his face.

Read the tongue twister.

Underline the soft 'c' sounds and circle the hard 'c' sounds.

Read, think and find.

What are computers used for?

What are the differences between early and modern computers?

Read the text below.

As you read, think about these questions and find the answers.

### The History of Computers

Computers are everywhere in our daily lives. They are on our desks, on our laps, in our cars and in our phones. A smartphone is really just a tiny kind of computer.

#### What computers can do

Computers can store information, do maths, play films and music and send e-mails. You can play games on them too.

#### Early computers

Early computers were huge. They were the size of a large room! They were also very expensive and needed a lot of electricity.

Early computers could do only one simple thing. Then in the 1930s, a man called Alan Turing had an idea. People sometimes call Alan Turing the 'father of computer science.' His idea was to programme a computer so that it could do lots of different things.

#### The microchip

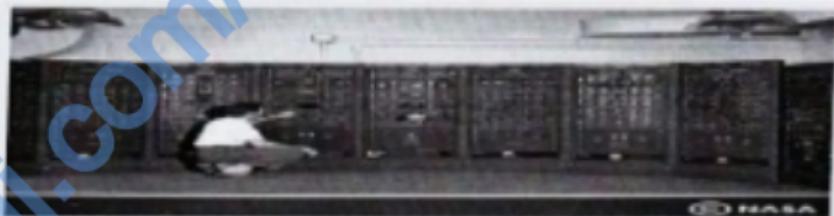

In 1958, Jack Kilby invented the microchip. Microchips are like tiny plates which can store lots of information. After the microchip was put into computers, they became much smaller.

#### Computers at home

By the 1970s, computers became cheaper so ordinary people could afford to buy them. In the 1980s, computer games started to become popular. Lots of people bought computers just because they wanted to play computer games!

#### The World Wide Web

In 1989, Tim Berners-Lee invented the World Wide Web, a way of organizing information on the Internet through websites. So people could use their computers to look for and share information.

## Let's Look at Grammar

### The Future with 'Will'

We use **will + verb (Infinitive)** to predict what will happen or what we think will happen in the future.

Examples: People **will travel** to other planets.  
It **will be** sunny tomorrow.

To predict something that will not happen, we use **will not (won't)**.

Examples: In the future, children **will not go** to school.  
My uncle **will not visit** London next year.

The short form of **will** is 'll. The short form of **will not** is won't.

#### Affirmative

I	will	help.
He	'll	
She		
It		
We		
You		
They		

#### Negative

I	will not	help.
He	won't	
She		
It		
We		
You		
They		

#### Interrogative

Will	I	arrive early?
	he	
	she	
	it	
	we	
	you	
	they	

We can also make questions with **will** and **Wh-** question words.

Examples: Where **will** people live?  
What **will** you do?  
How **will** she go to school?

## 1 Read and underline.

Experts predict that in 100 years from now, there will be 11 billion people on earth. So there won't be enough space for us all to live in the world. We won't live in cities like today. We'll build cities under the sea or underground. People will travel through space to look for new homes. Perhaps we'll live on the Moon or on Mars!

Read the text below.

Underline the short forms of will and will not.

Use will for affirmative or won't for negative sentences

will study English.

won't eat ceviche.

Use **WILL I ; WILL SHE ; WILL HE** ... for interrogative sentences

will you study English? Yes, I will

will she eat ceviche? No, She won't
