**** Read the following comprehension and answer the questions**

Banks are places where people can keep their money. Most people use banks to save money in their savings accounts and to pay money from their checking accounts. Today, when a person earns money from their job, their paycheck is often electronically deposited (put) into their savings or checking account. Then, he or she can pay their bills by writing checks from their checking accounts or pay online where their bills are electronically connected to their bank accounts. Banks also give loans to people.

People may use the bank's money to buy new houses, cars, or to start businesses among other reasons. The bank makes money from lending by charging interest. In other words, people have to pay back more than they borrowed. This amount depends on how risky the bank thinks the borrower is and how fast the loan is paid back among other things.

1.) How much "interest" do borrowers have to pay?

- A.) Most borrowers don't have to pay interest.**
- B.) Everyone pays the same amount of interest.**
